General Carranza Is President, Men Who Rule Affairs of Nation and State of Sonora Is Capital.

Mexican Revolutionists Hope to He Believes Public Is Beginning Press On to City of Mexico.

Washington, October 5.-The Mexican evolutionists, it is announced, have established their independent provisional government with Hermosillo, State of Sonora as the capital, and General Carranza the President.

The new government has already secured a loan of \$500,000, secured on a 50 per cent lien upon the customs of the State of Sonora.

The loan was arranged by Experience the control of the state of Sonora.

It is admitted at the State Department that it is "customary, but not necessary" for an insurrectionary party demanding recognition to be able to show that it is in possession of seaports. They think that Carranza is putting this claim for recognition beyond question by the gossession of a navy and seaports through which he can get all the arms and ammunition he needs from foreign sources.

"Death Blow" to Revolution.

Mexico City, October 5.—Government officials regard Federal success during the past week as a "death blow" to the organized revolution in the North. The defeat of the rebels at Santa Rosalia appears to be confirmed. Advices from General Sanuel E. Mercado, Military Governor of the State of Chihuahua, describes the result as a rout of the cnemy.

"During my vacation I have had time to think things over, to study the general trend. As you know, I have felt uneasy for the last two years. I could see many dangerous elements in our social and political life.

Raiding, pillaging and burning of rainches continues in various parts of Puebla and Morelos. Efforts of the rebels in San Luis Potosi, Coahuila and Nuevo Leon are confined to the cutting of railroads and the raiding of small towns.

Federico Gamboa, nominee of the Catholic party for the presidency; Manuel Calero, Liberal candidate, and the followers of General Diaz are pushing the work of organization for the elections October 26. The bill for the post-ponement of the elections is due to come before the Chamber of Deputies this week. The question of the constitutionality of the measure is said to have created a division of the compittee to which it was referred when introduced in the chamber. In political circles the defeat of the measure is regarded as likely.

Fair and above board, fair to our men, fair to competitors, fair to consumers, and frank with the public.

We have tried honestly and conscientiously to live up to that standard. And have you heard, in all the noise raised against us by the politicans, one word of condemnation by any competitor, customer or employe? Have they complained of unjust methods. Have they not testified that we have conducted our business on fair and reasonable lines? We may not be centitled to praise for this, but we certain the competitors of the competitors.

New York, October 5 .- I had a long,

In the New government has already secured a loan of \$3.00,000, secured on a loan of \$3.00,000, secured on a load of the State of Sonora.

The loan was arranged by Francisco Escudero, who is to be the Secretary of the Treasury of the new Cabinet, and who has lately been in Washington.

The fiscal agent of the new provisional government said to The Times, Dispatch correspondent to-night:

"This loan was easy because we showed to the syndicate that we not only absolutely control the State of Sonora, but that we were collecting the customs from all the custom-houses in addition to that source of revenue there is the internal taxation in this province and similar collection taxes in Durango, Chihuahua, Zachatecas, Coahulla and various outlying territories in which there is no evidence of a Huerta force. Loans to us are perfectly satisfactory, and will be easily made in the future.

"There will be an early formal announcement of the members of Precident Carranza's Cabinet, and the war will proceed until we change our capital to the City of Mexico."

The State Department officials understand that the Carranza government will use its loan for the present for the Linted States, so as not to excite animosity of President Wilson. This vessel, with others, will be used to clear the Pacific coast citics of whatever navy Huerta has, and open the custom-houses all along that coast for the benefit of the Carranza treasury.

It is admitted at the State Department that it is "customary, but not the United States, so as not to excite the animosity of President Wilson. The town was recaptured, according to the Governor. Several thousand men were said to be engaged at Santa Rosalia, and fighting had been in progress since Thursday. [Special to The Times-Dispatch.] [Special to The Times-Dispatch.]
Washington, D. C., October 5.—The first gun to silence the opposition to the Glass-Owen currency bill, when it is taken up in the Senate, will be fired here to-morrow, it is expected, when kepresentative Carter Glass, chairman of the House Banking and Currency Committee, makes public a long and claborate reply to resolutions recently adopted by the Virginia Bankers' Association, and to others who have shown opposition to the measure.

It is known that Mr. Glass has been

shown opposition to the measure.

It is known that Mr. Glass has been at work on this statement for several days, and that he expected to make it public to-day, but at a late hour toright he said that while he had practically completed it, he wanted to add it little "sait." From this statement it is taken to mean that the Virginia Congressman intends to handle the bill's critics with gloves off, and to express his opinion freely concerning those who oppose it. That the bank-ers association has recanted from its

This statement will be of much importance. It will mean the administration's first gun has been fired for the Senate. At the same time it may serve to draw out the opposition fire, which will indicate the enemy's position when the measure goes before the Senate for action.
